Sury – Thanks again for your continued and timely assistance.

Sue and I briefly discussed the upcoming (1/24) meeting with the Administrator (RE: TCE endpoints), and walked through some OPPT replies to workgroup comments.

Attaching OPPT's redline/strikeout version, FYI ... just in case you want the most recent version (i.e., downloaded **today**

at 4pm) for your records.

Reply with follow-up questions, comments or concerns; otherwise, best wishes to all for great weekends. ~~~ Jace (AWL# 703-330-6775)

I don't remember seeing the earlier comments from CPHEA being addressed. Do you see any change? Did I miss anything? Please let me know.

Have a great weekend.

Best,
